A German official said he has found a batch of World War II Nazi documents which might tell the complete story of the mass murder of millions of Jews charged to the dreaded army unit headed by Adolf Eichmann.

Erwin Schuele said he found the papers in the U. S. War Record Center and the Library of Congress where they were shipped after the war.

He heads the West German Central Office for the Prosecution of Nazi War Crimes. He said the records found here provided evidence against several ex-Nazis accused of war crimes and facing trial. (UPI)
